

# PICK UP & DROP OFF AREA YELLOW BOLLARD SIGNAGE

As part of Council's School Safety Program, Council has developed a new resource designed to assist drivers utilising the No Parking - Pick Up and Drop Off areas.

We understand that dropping off and picking up your child generates a high volume of traffic which can impact on the surrounding streets, neighbours and general road users.

It has been observed that many drivers utilising the No Parking - Pick Up and Drop Off areas are not using the bay as designed, pulling up directly outside the school gate and not driving to the end of the bay. This causes the traffic impact to be exacerbated and leaves half of the bay unoccupied.

To assist with this, signage will be installed at the beginning and end of all No Parking - Pick Up and Drop Off bays at primary schools in the Camden Local Government Area.

## What is the purpose of these signs?

- To provide clear information on where the No Parking area begins and ends, reducing the likelihood of queuing or stopping in adjacent No Stopping areas or Bus Zones;

- To assist in directing vehicles to utilise the front of the bay. Vehicles should **always** move to the beginning of the bay before dropping off or picking up their child;
- To provide an aid to teaching staff who are supervising the No Parking - Pick Up and Drop Off area and allowing them to provide clear direction to drivers as to where they should stop; and
- To provide an educational aid to students, showing them where they should be picked up and dropped off.

**Please remember to always drive to the end of the bay, follow the directions of staff and be respectful.**

**Remember** you can only park in the No Parking - Pick Up and Drop Off area for a **maximum of 2 minutes** and not be more than 3 metres from your vehicle. You **MUST NOT** start queuing or waiting in the No Parking area for longer than 2 minutes. This means that you should not turn up to the school prior to finishing time to wait in the No Parking area.

**Fines exceed \$194 and 2 demerit points.**

**Let's all work together to keep our kids safe  
and minimise the traffic issues around our schools.**
